Focusing on resource efficiency
and environmental opportunities
in business and industry

Part-time and flexible for practioners

Full cost: €2,170

Next Level cost: €1,085

What is the course about?

This is a new practice based course developed by NUI Galway and Next Level Skillnet. Course content includes the following core modules: Environmental Science, Environmental Management for Organisations, Environmental Compliance, The Lean Organisation and Technology, Environmental Leadership in Organisations, Environmental Awareness and CSR. Elective modules include: Energy Management, Waste Management and Compliance, Water Management and Conservation, Lifecycle Design for Environment. The course is 30 ECTS at level 8.

How is it delivered?

The course will run from September 2019 to May 2020. It is delivered by a combination of Saturday on-campus workshops approximately every 4 weeks, online lectures and learning activities, eBooks and other digital resources, and printed module guides. There will also be guest lectures and site visits.

What assessments are used?

Each module is individually assessed by assignments completed throughout the semester. The major assignment for each module will be the development of a plan for the participant's workplace.

How do I apply?

Applicants must have a level 7 award of no less than 90 ECTS. The application deadline is 9th September 2019. Contact emma.court@nuigalway.ie for academic information and application details. Contact sue@nextlevel.ie for information on the fee subsidy.
